WORLD NATURE CONSERVATION DAY
28TH JULY, 2023

THEME: Forest and Livihoods: Sustaining People and Planet

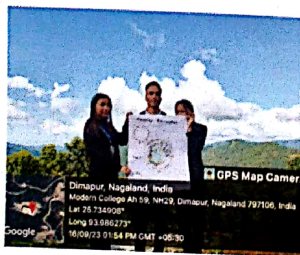

Dimapur, Nagaland, India
Ah 59, NH29, Dimapur, Nagaland 797106, India
Lat 25.736594°
Long 93.987424°
28/07/23 01:29 PM GMT +05:30

WORLD OZONE DAY
16TH SEPTEMBER, 2023

THEME: Montreal Protocol: fixing the ozone layer and reducing climate change

Dimapur, Nagaland, India
Modern College Ah 59, NH29, Dimapur, Nagaland 797106, India
Lat 25.734908°
Long 93.986273°
16/09/23 02:00 PM GMT +05:30

WORLD EARTH DAY 22ND APRIL, 2024

THEME: Planet vs. Plastics

ONE DAY PLANTATION DRIVE

3RD NOVEMBER, 2023

THEME: One Person One Flower Project

WETLAND CONSERVATION CAMPAIGN

25TH JANUARY, 2024

THEME: Wetlands and human well-being

Report on Campaign on Wetland Conservation (Eco Green Club)

Following the 'Campaign on Wetland Conservation' under the theme, "*Wetlands and human well-being*" sponsored by the Nagaland Pollution Control Board (State Nodal Agency) with respect to Environment Education Programme (EEP), the Eco Green Club of Modern College took up an initiative campaign on 25th January 2024 by cleaning the college fishery pond and its surrounding. This was done in keeping up with the main motive of preserving the wetlands for its countless benefits or "ecosystem services".

A total number of 19 Eco Green Club members participated in this innovative campaign where all the members were once again reminded and made aware about the various pollution issues disturbing the mother earth and how every individual is responsible for its present state. Steps to be taken in order to preserve the ecosystem and create a balanced environment were also discussed.

Preserving Wetlands is vital today in a world where industries are growing thus contributing to pollution and climate change. Wetlands are critically important for they purify the air and also help in mitigating climate. Wetlands also serve as habitat for different varieties of plant and animal species.

Thus, conserving wetlands have become a priority as the survival of biodiversity depends on the condition of such places, for if we don't we will not only loose the biodiversity but all the wonderful ecosystem services that are associated with them. So, save them.

List of Participants-

Teachers-

Pulovili Lohe (Convener)

Ruth Hansing (Member)

Neillhoukhonuo Nipu (Member)

Keleseno Longkumer (Member)

Students-

- 1) Neizeno
- 2) Achele
- 3) Leroya
- 4) Rachel
- 5) Rasina

Principal
Modern College, Piphema

- 6) Visielhouuo
- 7) Visino
- 8) Wangyu
- 9) Moalong
- 10) Asik
- 11) Akash
- 12) Lokito
- 13) Roshan
- 14) Neiketoulie
- 15) Sangle
- 16) Thangboi
