7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

Best Practice I: "Environmental Initiatives"

Environmental degradation is detrimental and jeopardising the long- term health and security of the environments. Now, it is important that we understand, the impact our actions have, on the environment. It is especially imperative to teach every individual about the importance of environmental awareness. With an objective of achieving the vision of the institution, improve the efficient use of all resources and creating mass awareness on cleanliness and hygiene to all stakeholders. Some of the activities performed are Energy and Water Conservation, Spring Water Harvesting, Recycling of waste water, Proper use of Dustbin/ Recycle Bins, Going digital, Awareness on minimising the use of plastics, putting up of relevant signage and conducting Cleanliness Drives. IQAC through the Eco Green Club observes National and International important

days with regard to Environment sustainability. Best Practice II :

Students' Care

The nature of students' background i.e. catering to different socio-cultural and economic diversity necessitates Students' Care being opted as one of the best practices by the institution. The absence of institutionalised system of having proper system of mentoring, guidance and counselling in the region along with the obvious fact that most of the students are from remote areas and first generation learners makes it imperative on the part of the institution to provide Students' Care i.e. guidance for all-round development of the students. Moreover, it is aimed to align with the institutional mission and vision statement.
